PRODUCT INFO

Arena. The classic vector simulation. Pursuit competition and multi player modes ensure what you do on the first level is good but what you do on the second level is brilliant. Solid 3D effects complete with polygon hidden line removal. Fully configurable keyboard control. Two player option via RS232 interface. Two player head to head competition. Fly, Dogfight, pilot your fighter in the ongoing evolution of the universe. Refuel, rearm, repair. Then do battle once more. The mega combination features of this challenging game ensure super long term playability and replay value. The magic of the arena! Drives you on and on and on! Total immersion in a galactic universe where the power of the ST is fully utilised for a truly unique time distortion.

A game from the Psygnosis Fantasy Development Series.

CHAMPIONSHIP BASEBALL™

This is it. For the Championship. Last of the ninth, two on, two out. Down by one run and the runner's going wild! You step into the batter's box, and their ace reliever uncorks his first pitch.

"STRIKE!"

With the pitch, your runners pull a double steal. A gutsy call, but now a single wins the game. You...

"STRIKE TWO!"

This guy means business. Time to get the lumber off your shoulder. His next pitch starts outside, but is breaking into the strike zone. You swing, and

What happens? It's up to you and CHAMPIONSHIP BASEBALL. All the elements of real baseball are here – league play, lineup changes, late inning excitement, and of course, big league action. Welcome to the major leagues of computer baseball.

The Real World of Simulation

GFL CHAMPIONSHIP FOOTBALL™

There's a lot more to football than X's and O's.

You haven't really experienced football until you've been down on the field, with an offensive linebacker breathing straight for you and ruthlessly blocking him.

There's a whole lot that experience. Five weeks a year.

You haven't felt the real excitement of football until you've felt the perfect pass pattern. Seen that man get away and caught the winning touchdown pass.

There's a reward for that kind of performance. The reward is victory.

You haven't seen real computer football yet, you've seen **GFL Championship Football**. It has what no other computer football program has - victory-hungry opponents set to put you down on the field where the action is.

Which is where you want to be if you're looking for real football.

X's and O's were never like this.
